Head of Plant Health Services

**John Morgan**

Dear Mr Jones,

**REGISTRATION REQUIREMENTS IN THE SINGLE MARKET**

Thank you for completing and returning the application form for registration or exemption from registration for Forestry Traders.

I confirm that importers of controlled timber (shown at section 8 on the form) must be registered under the terms of The Plant Health (Forestry) Order 2005, if they wish to notify us of the landing of controlled material which requires a plant health inspection.

Based on the information you have supplied your company must register. Your individual registration number is UK/FC103405 and your company's name will remain listed in the official register.

If your company's circumstances change please let me know.

Yours sincerely

Jo McAuley  
Plant Health Administration Manager
